

Your next career move:

## Managing Director China Office

You will fit perfectly to our highly dynamic team, if you:

- have an entrepreneurial spirit to establish and grow a limited liability company in the Peoples Republic of China
- have a broad network of contacts within one or more of the following industries: steel, ports, automotive and smart cities.
- have knowledge about how radar positioning solutions in these industries can optimize customer's key processes
- can drive complex hardware and software sales cycles and convert them into profitable projects
- can look back at a career with first leadership roles
- master with professional proficiency English and Mandarin

We offer you:

- an unique opportunity to build our China business
- a team with common sense and 'can do' attitude
- highly flexible working hours with the option to use your home office, when applicable to the tasks
- an international team with a large pool of technical and commercial experience
- further career opportunities in a fast growing, international organization
- a competitive salary and success driven bonus system
- a great working atmosphere

Don't hesitate – we look forward to meeting you personally.
